Dumont Public School District
Early Childhood Development Education

January 2018

Dear Parents/Guardians:

The Dumont Public School District is extremely proud of our *Dumont Preschool Inclusion Program* for three and four-year-old children. As parents and educators, we know how important quality early childhood educational programs are for the youngest members of our community. This innovative program will provide our children with a child-centered environment in addition to the supports and services needed to achieve valuable learning outcomes as well as to form and maintain productive social relationships with other children.

Our board of education believes that supportive partnerships around a child provide the kind of environment in which families, schools, and community work together to achieve and sustain shared goals for children. We are looking forward to working with your child in this first step of their educational journey.

Our program will be housed at Selzer School and will feature three sessions, one in the morning and two in the afternoon.

For the 2018-2019 school year, the program will only be available to three-year-olds unless some of our four-year-old students do not return. In order to be eligible, children must be three on or before October 1, 2018.

Sincerely,

Emanuele Triggiano
Superintendent of Schools
