Dear Parents/Guardians:

Pursuant to N.J.S.A. 18A: 7C-6.6, school districts are required to provide parents and guardians with information on any state assessment or commercially developed standardized assessment that will be administered to students during the school year. Attached please find a chart listing the assessments that the Dumont School District will be administering to our students. Website links to sites with sample test items, when available, have been included as a parental resource. The 2021-2022 District Testing Schedule can also be found on our school district website located at [www.dumontnj.org](http://www.dumontnj.org). This chart will be regularly updated on the school district website as information becomes available.

The assessments described as “benchmark” assessments on the chart are used purely for diagnostic purposes. They are not graded assessments. The results from benchmark assessments are for instructional purposes only, and will provide important information to your child’s teacher about strengths and weaknesses for upcoming lessons and will help them individualize instruction for your child. Some of the other assessments listed on the chart are required as part of the state assessment program, or are commonly administered assessments to help students prepare for the college admission process.

Specific schedules for each grade and school are mailed home to parents in advance of any state and/or College Board standardized test administered to your child during the school day. Teachers will schedule benchmark assessments with students in class according to the timeframes listed in the chart.

Should you have any questions regarding our assessment program, please feel free to contact your child’s school and/or my office.

Thank you,

Richard Gronda, Ed.D.
